

Municipal Further Education Advice & Hesse Campus for Educational Advice

Advice on further education at the vhs helps you to plan your professional future. You can obtain information about further education opportunities, how to fund your further education, and the recognition of foreign qualifications. The advice offered is free of charge, confidential and independent – even beyond the vhs courses. Consultations are only possible by appointment.

The VHS Volkshochschule Adult Education Centre – a place for education

The vhs Offenbach is a municipal agency of the town of Offenbach. It offers a range of further education courses, mostly for adults. The vhs courses and lectures enable you to continue learning for a lifetime. People meet on an equal footing here. Often, they are people who would not otherwise meet, which contributes to the discussion and encourages a cosmopolitan outlook in the town. There are also online courses and lectures so that you can learn from home.

Learning helps you to master changes in life and in your work. It helps you to keep healthy and adds enjoyment and variety to your life, together with other people. Learning increases self-confidence.

Learning at the vhs is intended to bring enjoyment and to arouse interest, curiosity, fun and the desire to learn. Our courses are priced fairly, since we want everyone to be able to participate in our courses.

Adult education centres have existed for over a hundred years in many German towns and cities. They are intended as places of education for all people – and particularly for adults. It doesn't matter where you come from, what motivates you to learn or what makes you tick. Education strengthens each individual, and thus also strengthens cohesion in our society. Adult education centres are a cornerstone of our democracy.

Learning for life vhs Offenbach

Adult Education Centre – further education and education management

vhs courses

Professional further training and using computers

There are numerous requirements and questions when it comes to working life. We offer a large number of courses to help you. For example, there are courses in financial accounting, programming, software and application tips, as well as on professional jargon.

Financial accounting, office software, application tips, communication

Society and life

The vhs also offers courses on other important topics, such as political, environmental and legal issues.

Finance, specialist knowledge for voluntary work, politics, psychology, dealing with media, the history and culture of Germany and other countries

Health

You can strengthen your health with vhs courses. Find out different ways to reduce stress and remain fit and agile. There are also courses on how to have an enjoyable and balanced diet.

Fitness, back strength, healthy living and eating, stress reduction, cooking and physical well-being

You can find all our courses at www.vhs-offenbach.de.

Basic education and school qualifications

You can learn basic things such as reading, writing and maths here. You can also retake your school-leaving qualification.

Learn reading, writing and maths, how to use computers and smartphones, and how to prepare for a school-leaving certificate

Junge vhs Children and family

The vhs wishes to support children and families – that's why we support mothers, fathers and grandparents with parenting topics.

Parenting, learning techniques, managing childhood stress, movement courses for children

Culture and creativity

We offer just the right thing for all those who wish to work creatively and learn a craft. You can learn the basics and also advanced techniques in photography, sewing, pottery, painting and more. Courses on theatre, literature, film and music are also offered.

Photography, creative design, literature and writing, dance and theatre

Languages and communication

You can learn a lot of languages at the vhs, including, of course, German.

German, English, French, sign language, Spanish, Croatian, Turkish, Russian and further languages

Self-learning centre (SLZ)

In the SLZ, you can learn independently using computer programs. Our learning advisors will support you in this and help you to use the technology and programs. You can use the programs to learn about the following subjects:

- Languages, including German
- Reading, writing and maths for adults
- How to use MS Office programs
- Various school subjects

 2nd floor, vhs, room 216

Start Project production school

The Start Project gives young people their first professional experience in catering. They can retake their school-leaving qualification and prepare for vocational training and the job market. Under expert supervision, the participants run the 'Essbar – lunch menu with a skyline view' and the vhs cafeteria. The project has its own kitchen in which all the meals are freshly prepared by the young people. The **cafeteria** on the 1st floor offers sandwiches, home-made cakes, and hot and cold beverages.

 Mon–Thurs, 8:00 – 13:00

In the Essbar on the 5th floor, you can enjoy a hot lunch, with dishes from all over the world. Please book by phone by 10:30.

 Mon–Thurs, 12:00 – 13:00

 5th floor, vhs

Education coordination and advice

Not only does the vhs offer its own courses, but it also carries out municipal education management. This is undertaken by the Education Coordination and Advice Department. It provides information and advice on educational offerings and reports regularly on educational statistics. It conducts events for education professionals, encourages discussion between education providers, and thus supports cooperation. The department encompasses the Municipal Further Education Advice Centre (webb) and the OF Education Office.
